Table of Contents: Adverse Event Reporting SOPs for Medical Devices

Previous Presentations About SOPs ................................................................. 6

Dr. Sharlin’s Credentials .............................................................................. 7

Outline Of This Presentation ..................................................................... 8

CDRH Requirements - Written Medical Device Reporting (MDR) Procedures .. 9

Common Compliance Problems with SOPs ............................................. 10

Purpose & Benefits of SOPs ..................................................................... 11

Summary of SOP Development, Flowchart ............................................. 12

Summary of SOP Development, Flowchart (2) ....................................... 13

Summary of SOP Development, Flowchart (3) ....................................... 14

The Six Most Common Statistical Errors - From CDRH ....................... 15

How Reviewers Examine Safety Data ..................................................... 16

How Reviewers Examine Safety Data (2) ............................................... 17

A Reviewer’s Five Sources of Information for a Safety Review ............. 18

Ten Ways To Improve A Submission Using Information
From the Reviewer Guidance on Evaluating Safety Data ...................... 19

Ten Ways To Improve A Submission Using Information
From the Reviewer Guidance on Evaluating Safety Data (2) ................. 20

Overview Flowchart of AE Reporting Before A Medical Device is Approved –
IDE Regulations ...................................................................................... 21

Overview of AE Reporting Before a Medical Device is Approved –
PMA Requirements For Safety Data ......................................................... 22
Overview of AE Reporting After a Medical Device is Approved – Postmarket Surveillance, 21CFR 822 ................................................................. 23

Overview of AE Reporting After a Medical Device is Approved – Medical Device Reporting (MDR) ................................................................. 24

Voluntary Device Reporting By Health Professionals ..................................................... 25

Voluntary Device Reporting By Health Professionals (2) ............................................. 26

Mandatory Device Reporting By Health Professionals ................................................ 27

How FDA Uses MedWatch Data ................................................................................ 28

SOP Format: Section Headings .................................................................................. 29

SOP Format: Details ................................................................................................... 30

How to Change Model SOPs ..................................................................................... 31

Five Required Activities for Each New SOP ................................................................ 32

Factors Affecting Modification of Model SOPs ........................................................... 33

Six Features of Model SOPs ....................................................................................... 34

How To Use SOP Deliverables .................................................................................... 35

33 Definitions Applicable to Medical Device Reporting (MDR) ................................. 36

33 Definitions Applicable to Medical Device Reporting (2) ....................................... 37

33 Definitions Applicable to Medical Device Reporting (3) ....................................... 38

33 Definitions Applicable to Medical Device Reporting (4) ....................................... 39

33 Definitions Applicable to Medical Device Reporting (5) ....................................... 40

33 Definitions Applicable to Medical Device Reporting (6) ....................................... 41
